

Near vision test

PRINT THIS DOCUMENT TO A4 FORMAT

PLACE

yourself at a close reading distance of about 35 to 45cm (14" to 18").

READ

down the chart until you reach the line you cannot read comfortably.

LOOK

at the figure on the left to find the test result.

TRY

the matching correction and start again.

Read Loop near vision test is for indicatives purposes only and can't be qualified as a full medical diagnosis. Only a comprehensive eye exam performed by a licensed ophthalmologist can determine your visual acuity reliably.
